

Dear Rob,

I wanted to thank you for an amazing result I had from one of your healing treatments (18th April 2013)! I was suffering with heavy periods and was diagnosed with a polyp in my uterus which showed on the ultra sound scan (17th April 2013). The gynaecologist gave me an appointment for the polyp to be removed. On the day they put the camera into my uterus there was no polyp any more ... (20th May 2013) You got amazing healing abilities!!

Thank God ;-)

Much love

Katja xxx
